WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Confidence remains high for an unsettled weather period well into next week. The highest amounts of precipitation should occur this week. Liquid water amounts through Friday evening should range between 1.5 to 3 inches across the coastal mountains and along the Cascades and Sierra ranges. Based on the storm track and abundant subtropical moisture associated with it, portions of the Cascade and Sierra could see upwards of 5 inches of liquid water, making this one of the most significant wetting events since the beginning of winter. Stronger periods of southerly winds will affect the area Thursday. Expect general gusts between 30 to 40 mph but locally higher readings could be observed across the northern higher ridges.

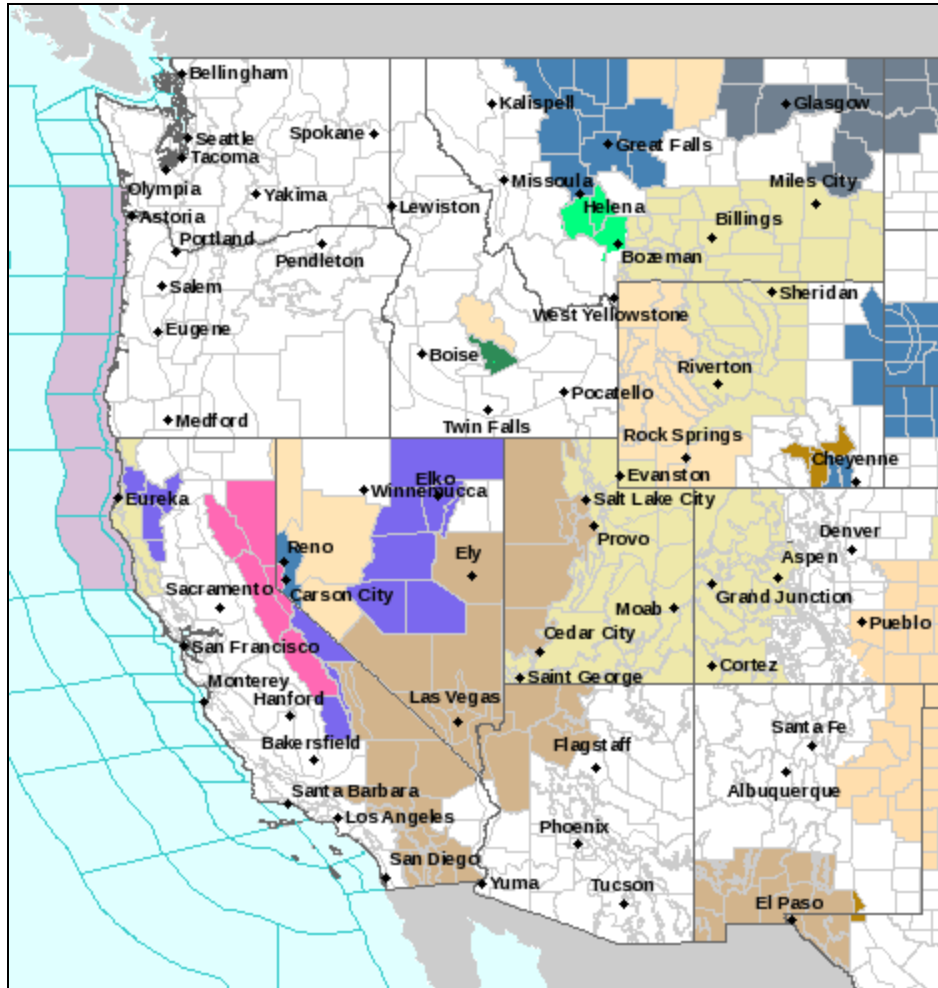

A cooler air mass will remain during the weekend with some scattered light showers favoring the mountains. The wind flow looks to be fairly light at this time.

Next week will remain unsettled although the models are having a hard time with their prediction of the next significant Pacific trough. Its too early to say precipitation impacts other than some will affect the region. Temperatures are more likely to be near to below normal.

SOUTHERN CALIFORNIA

A Pacific storm will drop slowly down the West Coast and then inland over Northern California bringing scattered showers to the region through Saturday afternoon. Most foothill and mountain locations will receive an additional 0.75 to 1.50 inches of rainfall and most coastal and valley locations will receive an additional 0.25 to 0.75 inch of rainfall with this storm. The snow level will drop to between 5,000 and 6,000 feet today and then down to between 4,000 and 5,000 feet by Saturday. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas through Saturday afternoon. Temperatures will be around 10 degrees below normal today through Saturday, with mid 30s to mid 40s across the mountains and 50s to low 60s in the valleys. A weak ridge of high pressure will bring a little warming along with dry conditions and light winds Sunday and Monday.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-45627, 03/12/18, 1525 hours:** The Santa Barbara County Sheriff's Department (SBSD) issued mandatory evacuations orders effective at 2000 hours 03/12/18 for the Thomas, Whittier, Sherpa, and Alamo Fire burn scar areas for a "fast approaching winter storm". To assist with any needed response efforts, SBSD requested 10 CNG High Water Vehicles and support personnel to be staged at their HQ in Goleta. CNG approved the request and anticipates having the resources in place by 1000 hours 03/13/18. A Cal OES Assistant Chief is on scene monitoring the local SBSD effort and coordinating any additional LE requests. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties.
- **2018-Southern-44905:** Communications support, Baker to Vegas Annual Challenge Cup, San Bernardino County (Coordinating)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
